

NIACE Would Like to Congratulate ProCap for their First Anniversary

NIACE would like to extend our heartfelt congratulations to our partner firm ProCap for their first anniversary. For the past year, ProCap has been challenging the norms of the insurance industry through innovative product offerings and a desire to explore untapped markets.

The standout factor of ProCap is their unwavering dedication to cater their offerings to client's needs. ProCap understands that insurance is complex and daunting, which has driven it to simplify the process for clients, ensuring clients have the right protection without the hassle. Additionally, ProCap's forward-thinking approach has impressed the NIACE team as the company constantly seeks out new opportunities and emerging trends to stay ahead of the curve. This innovative mindset is what drew NIACE to partner with ProCap on their latest venture, Digital Asset Insurance.

With the proliferation of cryptocurrencies and other digital assets, there is an increasing risk that investors could face theft or increased volatility. NIACE recognizes the potential demand for Digital Asset Insurance as a solution to mitigate these risks and provide investors with peace of mind. NIACE believes that the partnership with ProCap will address the growing need to provide comprehensive protection for digital assets in the current market environment.

In addition to their client-centric approach and innovative spirit, ProCap boasts a team of highly skilled and experienced professionals who are passionate about what they do. There is organisational alignment from the management down to their dedicated support staff as everyone at ProCap is committed to delivering excellence reliably. This level of expertise and dedication is something that NIACE values deeply in a partner.

NIACE would like to express our gratitude to ProCap for their partnership and vision in bringing Digital Asset Insurance to the forefront. The company believes that this partnership will make a significant impact on the insurance industry and continue to provide investors with innovative, client-centric insurance products globally. Additionally, we hope that the partnership will continue to grow and deepen going forward as NIACE anticipates future collaborations with ProCap.
