

NIACE Endorses Procap International as a Trusted and Reliable Provider of Capital Protection for Cryptocurrencies

The management of NIACE would like to recognise Procap International as a trusted and reliable provider of capital protection for cryptocurrencies. For the past year, NIACE has been working closely with Procap International to develop new product offerings for their valued clients. From our interactions with Procap International, we were impressed by their industry knowledge, professionalism and a deep understanding of their client's needs. This strong vote of confidence from the management team is a culmination of our partnership as NIACE looks to affirm and deepen the working relationship with Procap International.

Therefore, after much anticipation, the management would like to formally endorse Procap International proposed capital protection programs for cryptocurrencies. This is a historical moment for NIACE as this will be the first time in the company's history that we are tying up with another firm to offer a unique product specifically tailored to the needs of certain group of clients.

This is a testament to the confidence we have in Procap International and we fully support the introduction of their capital protection programs for cryptocurrencies. NIACE is proud to be a partner of Procap International and we look towards deeper collaboration between the two companies.

Note: Clients are advised to assess their own investment needs before deciding to purchase any product. NIACE's endorsement of Procap International is not a call to action in any form but merely an invitation to treat. You are advised to conduct your own due diligence before making any investment decisions.
